Making Good.

There is no way of making lasting friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore *don't accept a substitute* that the dealer may possibly make a little bigger profit. *Insist* on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's *special* ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the *original* Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much *imitated* but *never equaled.*

ANTI-RACE SUICIDE.

"Wives who from choice foster race suicide should be held criminally responsible."

This was the declaration made by numerous women physicians, in Chicago, yesterday, after Dr. Walter B. Dorsett, of St. Louis, had delivered an address denouncing the attitude of women who oppose the Roosevelt theory. Several speakers who followed Dr. Dorsett declared that the laws should be so amended as to permit the punishment of these women.

The sectional meeting, which was held by feminine practitioners in attendance upon the American Medical Association convention, finally adopted resolutions providing that a propaganda of education be launched. A committee will agree upon some method of reaching the lay mind either by popular lectures or by a legitimate publication.

Dr. Dorsett had asserted that ignorance was the chief cause of trouble of this sort. He claimed that the present conditions will be remedied only when the profession takes an active part in the education of both boys and girls.

In the section devoted to children's ailments, physicians came to the defense of infants in a determined manner. Automobiles and luxurious living, as well as alcoholic beverages, according to Dr. Edwin C. Graham, were preferred to children. Race suicide, he said, was the result.

Dr. Graham produced statistics purporting to show that burial associations and children's life insurance have much to do with a high death rate among children.

For a Sprained Ankle.

As usually treated, a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may be effected in many cases in less than one week's time. This liniment is a most remarkable preparation. Try it for a sprain or bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by W. F. Creighton and Co. and Richard Gibson.

SAYS HE IS 138 YEARS OLD.

William Brooks Mason, a negro preacher, who said he is 138 years old, yesterday asked the New York police to look for his 30-year-old wife, who, he said, left his home in the Bronx, on May 12.

Hobbling along with the aid of a cane, Mason walked into the station house, and said he was married three months ago to a 30-year-old woman in the city hall. On May 11 the man of seventy-odd years said he gave her $4. The next day she left him and he thinks she has gone to Charleston, S. C., where she had a child.

Mason said he was born in Havana in 1770, and that when Lord Cornwallis surrendered to General Washington, at Yorktown, he held General Washington's horse and gave the general a brick from a church for good luck.

The negro then returned to Havana, where he remained until 69 years ago, when he came to this country, an ordained minister, and preached through the south.

Nineteen years ago, Mason says, he married for the first time. He was then 119 years old. His wife died seven years ago, and he did not fall in love again until he met his present wife.

He has a pension from the government for services in the civil war, and on this he lives.

FLOODS AND TORNADOES.

Montana is experiencing the heaviest rainfall in the history of the State, and as a result railroad traffic is more or less demoralized. So far as known, only one life has been sacrificed as a result, that of Frank Myers, bridge superintendent of the Northern Pacific. He was in charge of a train which ran into a washed-out bridge near Bonita.

Traffic is completely suspended on the Northern Pacific, and there are upward of 1,500 passengers flood-bound at Billings, Livingston, and Missoula, on that line. Passengers for the east and west are being routed over the Great Northern from both Helena and Butte.

It rained heavily throughout the State yesterday and the outlook is anything but encouraging for sunshine. Theatrical companies, baseball clubs, and Emma Goldman are among those stranded. No trains have reached Helena from the East for five days.

Floods and tornadoes wrought havoc in Texas Tuesday night and yesterday. The worst was in the Panhandle, where unprecedented floods swept the Pecos, the Wichita and the Red rivers. The Fort Worth and Denver Railroad has miles of track washed away. Two boys were killed by lightning near Whitesboro.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

THURSDAY EVENING, JUNE 4, 1908

THE socialists of the Eighth Congressional district, of Ohio, are jubilant over the news that two English duchesses have agreed to stump that district in the interest of their candidate for Congress. These duchesses have plenty of money and fluent tongues, and will appeal especially to the negro voters. Their advent bodes no good for the republican of Ohio. The negroes are among the most susceptible people in the world to the influence of money, fine clothes, and fine phrases. They may yet be drawn into the ranks of the socialist party, which was born of the protective policy of the republicans. And, in that case, we shall have another instance of Actseon devoured by his own dogs.

THE American beef trust and its alleged control of the British meat market came up again in the House of Commons yesterday for a brief discussion in the direction of an investigation. Winston Churchill, president of the board of trade, after Charles W. Bowerman had called attention to recent trust-engineered advances in meat, promised that he would consider the appointment of a commission to see what could be done regarding "the operations of one of these great trusts which grow up behind a protectionist tariff." It is hoped the British government may find a way to control the beef trust, for certainly, so far at least, the United States government has failed entirely to do so.

FORM all accounts coming from Washington the holding of the republican national convention at Chicago on the 16th inst. will be a work of supererogation. Mr. Roosevelt will surely nominate Secretary Taft for president (if he does not snatch the nomination himself); will name the vice presidential nominee and has already drawn up the platform. The president's proclivities for "buttin' in" and holding on were never made more apparent than at this time and that he will dominate the convention is plain to all men.

BY A vote of four to one on Tuesday last the delegates in the Arkansas democratic State convention turned down United States Senator Davis, who desired to be sent as a delegate-at-large to the Denver convention. The Arkansas people made a mistake when they substituted Senator Davis for Senator Berry and doubtless repented of their mistake as soon as they realized what they had done.

IT IS stated that shad were so plentiful in the Susquehanna river recently that they sold for 15 cents apiece, and hundreds spoiled because there were no purchasers at any price. A similar condition once prevailed in the Potomac, but since fisherman were allowed to stake nets across the mouth of the river and thereby prevent the fish from ascending the stream shad are growing scarcer and dearer year by year.

WHILE Oregon is normally a republican State, President Roosevelt having received a plurality of 42,000, the State yesterday went democratic by 10,000 majority in a vote for United States Senator. This is one of the greatest upheavels ever recorded and indicates plainly that there is much discontent with the republican administration.

A COLORED man plead guilty to the charge of disposing of cocaine in the Hustings Court of Richmond yesterday and was given two years. The penalty was none too severe. Stringent measures will have to be resorted to to overcome the growing cocaine evil which seems to be permeating the whole country.

MR. PAYNE said in Washington, yesterday that the ways and means committee of the House of Representatives would not meet to consider tariff schedules until after the election. And no sensible man believed they would. So far as Mr. Payne is concerned the tariff will never be revised unless it is upward.

THE corner in corn at Chicago hardly helped the farmers that have sold their crop, or those whose corn could not come up to grade, although the price is 76 cents a bushel. It's merely a fight between the big speculators and has nothing to do with supply and demand.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., June 4.

With the re-direct examination of John A. Benson, the defense case, as to the part Benson played in the alleged gigantic land fraud of 1902, was closed today in the Hyde-Dimond-Benson-Schenider trial. Benson, who has been on the stand for two days, closed his testimony with a brief outline of the business relations he had with Hyde, prior to signing a contract with him, and after it was rescinded. He denied that any great volume of applications was filed by him through Hyde's office, or that Hyde filed any through his office.

The assertion of Representative Hitchcock, friend of Mr. Bryan, in a speech just printed in the Congressional Record, that Mr. LaFollette and his followers would vote for Bryan this fall, has created a stir in Washington. "The followers of LaFollette can find no place within the republican camp this year" says Mr. Hitchcock. "Their leader has been ostracised and repudiated by the republican organization. He has fought most desperately and brilliantly the currency bill, which was the leading republican party measure, and they will, in this campaign, naturally join the great army of Bryan men recruited from the republican ranks." The fact that Senator LaFollette's friends have made public none of their arrangements for the Chicago convention, such as the name of his nominator, lends some credence to the rumor that the Wisconsin senator will withdraw from the contest disgusted. Some sort of an announcement is expected from him any day. Should LaFollette desert to Bryan, it is acknowledge that his following would be an important, if not a serious defection from the republican party. It was practically the Wisconsin delegation under the direction of Senator LaFollette that defeated ship subsidy in the House. Only Judge Jenkins voted for it and it is understood that he is to be disciplined by defeat, for his independence of LaFollettism. The Wisconsinites generally figured against the Aldrich bill in the House and Representatives Cooper and Nelson, both LaFollette men, repeatedly attacked, on the floor, the republican methods of doing business in the House.

Senator Joseph W. Bailey, of Texas, will undergo an operation in New York tomorrow for elongation of the palate. Ever since the Texas campaign he has had trouble with his throat. This prevented his being heard in the Senate during the closing days of the session.

Ratification of three treaties recently drawn up between Great Britain and the United States were exchanged today by Ambassador Bryce and Secretary Root. These cover the questions of the Canadian boundary, Canadian boundery fisheries and arbitration between the two governments. Another treaty, pertaining to salvage and other claims, has been signed but not ratified.

Twenty-five applicants have been designated by Assistant Secretary of the Navy Newberry for examination for appointment to fill seven vacancies in the grade of assistant paymaster. The examination will be conducted on July 6 at the Washington and Mare Island navy yard.

The new armored cruiser North Carolina has been sent to Annapolis for a complement of six midshipmen of the graduating class. Visitors in attendance upon the graduation exercises this week accordingly will see at the very door of the academy the newest warship to be placed in commission and at the same time the biggest man-of-war that has ever made its way up the Severen to the doors of the academy.

It is said that there now are in this city more unemployed men and women than for years past.

Official Washington is preparing to sail down the Chesapeake bay, the latter part of next week to see the monitor Florida torpedoed. Secretary Metcalf is organizing a party to go on the Dolphin, on which Secretary and Mrs. Taft will be guests. The president's yatch, Mayflower, is being held at the navy yard, in case the President and Mrs. Roosevelt will find it possible to go. A charged torpedo is to be directed against the hull of the monitor and the vessel is now being bulk-headed to prevent sinking in case the explosion is not too severe. She will be anchored over a bar, so that, in case the missile penetrates he hull and sends her to the bottom, she can easily be raised.

Minority Leader Williams is taking sweet vengeance, on the republicans for passing through the House the resolution granting members "leave to print" speeches never delivered in the House, in the Congressional Record, for five days after the adjournment of Congress. The day after the session closed, Mr. Williams led off with a speech on the currency question, and today he comes out in another issue since adjournment with two more speeches. Other members have been content with embalming one speech and some with none. This time Mr. Williams talks about federal usurpation by the republican party and its prototypes, and under the title "Speech of Hon. John S. Williams, of Mississippi, in the House of Representatives, Saturday May 30, 1908" and with a line of introduction, prints an address of Hon. George Gray, of Delaware, before the Pennsylvania Bar Association, June 25, 1907.

Tornado in Texas.

Wichita Falls, Tex., June 4.—Scores of persons are believed to have lost their lives or been seriously injured in a tornado and flood that swept over Texas as far north as Vernon today. Scores of houses were blown down and business buildings were badly damaged. One man is known to have been killed and several fatally hurt at Vernon.

Communication has been cut off in all directions, but the severity of the storm and flood makes it almost certain many more perished.

The Pease river has broken all flood records, washing out the big iron bridge at Vernon and wrecking the railroad round house.

Charge Against a Prince.

Cettinje, Montenegro, June 4.—An open charge that Crown Prince George is at the head of a band of anarchists and bomb throwers in an attempt to overthrow the government of Montenegro was made today by Journalist Nastseo of Bosnia, in the trial of the fifty-two persons concerned in the recent bomb outrage at Bostinian.

Because she accepted a dare and donned overalls to carry some mortar up a ladder, Mrs. Martin Maurd spent a night in jail in Chicago, and was forced to wait several hours yesterday before her friends could pay her fine. Mrs. Maurd insisted the affair was all a joke, but Judge Maxwell was restless.

Rumors of a concerted plan to stampede the republican national convention to Roosevelt flew thick and fast in Chicago today on the eve of the meeting of the national committee. The source of these reports is believed to be the "allies," who are anxious to create the impression that Taft's reported strength is fictitious.

By the retirement for age yesterday of Col. Clinton B. Sears, Corps of Engineers, Lieut. Col. Smith S. Leach, acting chief of engineers is promoted to colonel. This gives Colonel Leach, who is secretary Taft's man for the head of the department, a grade equal to that of Col. Thomas W. Symons, who has been selected for the place by the president. Formal announcement of Col. Symons' appointment is expected.

ELABORATE DISPLAY OF FLAGS.

Decoration of the new Denver Auditorium for the democratic national convention in July will be the most elaborate ever used at any similar convention in the country.

Among the decorations will be six United States flags 30 by 50 feet. Four of these will be behind the speaker's platform, and between these four flags will be suspended an immense curtain of bunting containing 8,000 yards of sewed cloth. In the center of the curtain will be a shield 70 feet long by 15 feet wide. Attached to this shield will be eight 15-foot flags, and on each side of this central shield will be four similar shields smaller in size, being 12 feet long, displaying eight flags.

Behind the platform will be an enormous bank of green roping and artificial palms. On either side of the platform will be used artificial palms standing 15 feet high. Immediately over the platform will be suspended four stuffed eagles with wings extended 12 feet.

The balconies will be draped with red, white and blue bunting, with a series of shields of two colors alternating along the rails. The same scheme of decoration will be carried out with regard to the galleries. The side walls of the Auditorium from the ceiling down will be covered by one large drape of sewed bunting. Forty-eight stars, 10 feet in diameter, will cover the ceiling and in the center of each star will be placed a repetition of each State. These stars will cover the entire ceiling immediately above the place occupied by corresponding delegations.

KILLED HIS WIFE.

William Campbell, a bricklayer, quarreled with his son George, a clean-cut young fellow, at the supper table in New York last night, picked up the carving knife, and after slashing the young man on the arm, stabbed his wife, who rushed in between the two men, in the neck and killed her. The murderer would probably have escaped but for the arrival of Father Vincent McGehan, an athletic priest, who had been summoned to administer the last rites to the woman. He threw the old man into a chair and told him to stay there, and then administered extreme unction to Mrs. Campbell as she was breathing her last. The police were summoned and arrested Campbell.

[COMMUNICATED.

Why do those who are paid to keep alleys clean when plying their vocation attend to one part of these outlets and forget another. A day or two ago these wielders of what is left of the coal pile came up an alley on Queen street, between Royal and Pitt, emptied about half the ash barrels and left the remainder full to overflowing and departed. Is there anyone who can compel these people to do their whole duty or have the ash men a law peculiar to themselves? H.

SCIENCE SCORES AGAIN.

A Preparation That Will Destroy the Dandruff Germ Discovered.

Finally the scientific student has discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that digs into the scalp and saps the vitality of hair at the root, causing falling hair and baldness, bio'ogists set to work to discover some preparation that will kill the germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered, and it is now embodied in Newbro's Herpicide. It prevents baldness, stops falling hair, and speedily eradicates dandruff. "Destroy the cause, you remove the effect.

Petition of R., F. & P. R. R.

[Special Dispatch to the Alexandria Gazette.]

Attorney General Anderson today said he is satisfied with the appointment of Congressman Littlefield as master in the West Virginia debt suit.

"Jim Crow" Law Upheld.

Washington, June 4.—The jim crow laws of Virginia were upheld in the Supreme Court of the District of Columbia today when the suit of Agnes Carver, colored, against the Great Falls and Old Dominion Railway Company was dismissed. The court had instructed the jury if it was found that the woman had paid her fare in Virginia she was not an interstate passenger and should have complied with the jim crow laws. The jury so found.

The woman had refused to take a seat reserved for colored folks and sued for her removal from the car and incarceration at Rosslyn, Virginia.

The trial is said to establish a precedent in local courts.

Boutell Replies to Lilley.

Chicago, June 4.—Congressman Henry S. Boutell today issued a reply to the charges made by Representative Lilley, of Connecticut, yesterday, regarding the recent submarine boat inquiry in the House.

Mr. Boutell's reply is directed at that portion of Lilley's statement which refers to a letter said to have been written Lilley by Dr. Reisinger and containing a proposition from Boutell to compromise. Boutell states: "He (Reisinger) stated that Mr. Lilley and his case had both collapsed at the same time; that Mr. Lilley was in a state of complete mental and physical prostration, owing to his failure to substantiate his charges, his humiliation and his consciousness that he had been deceived by those who pretended to give him information."

Boutell further quoted the letter as saying that so great was Lilley's remorse, "that he could not talk coherently except at intervals and that he (Reisinger) feared he would commit suicide as a result and that he could not be left alone."

Boutell adds that he and Mr. Howard, of the committee, told the doctor if Lilley was in that mental condition he need not appear again and that it might relieve the mental strain if Lilley would tell the House frankly why he had made his charges.

"All talk of a 'compromise' being offered to Mr. Lilley and his scornful rejection of it are pure figments of a disordered mind." said Boutell. "He has now shown that he is a contemptible coward in shunning the proper forum in which to make a statement and in attempting to shield his infamy behind his wife and a doctor."

Dreyfus Shot.

Paris, June 4.—Captain Alfred Dreyfus was shot in the arm today by M. Gregori, military editor of the Gaulois. The shooting took place immediately following the ceremonies attending the transfer of the body of Zola, the French author and friend of Dreyfus, from Montmartre cemetery to the Pantheon.

The shooting came as a sensational climax to the tumultuous scene that have marked the Zola demonstration. Dreyfus, accompanied by Minister Doumergue, was leaving the Pantheon immediately behind President Falleries, when Gregori pushed his way toward him and fired two shots. Both took effect in Dreyfus' left arm.

Though painfully wounded Dreyfus was able to make his exit by a side door supported on either side by friends. Gregori was arrested.

In the melee following Gregori's attempt at escape the would-be assassin received a slight sabre cut at the hands of one of the gendarmes and when the officers attempted to lead him away he was pounced upon and badly beaten before the gendarmes were able to lodge him in the police station.

Returned to Judaism.

Boston, June 4.—Declaring that he has never baptised a Jew and that it is useless to attempt to win the Jews over to the Christian faith, Rev. Samuel Freuder returned to Judaism and abandoned his work as missionary to the Hebrews in New York city. His declaration is the sensation of the Hebrew-Messianic conference meeting in this city. Born of Jewish parents Freuder became a rabbi and served in synagogues until 17 years ago when he embraced christianity and was appointed a Jewish missionary in New York under the Episcopal Church. "I do not believe," said Mr. Freuder, "that missions (Jewish) as they are conducted are worth anything. The criticism against missions is two fold, first that those in the work don't believe what they are preaching; second, that the missionary is in it for the money. I have never baptised a Jew. I speak to both houses here—the Jews and the Christians. If you are satisfied with your faith, stick to it."

Bubonic Plague and Yellow Fever.

Kingston, Jamaica, June 4.—The spread of the bubonic plague and yellow fever in Trinidad and a heavy influx of Chinese are two matters that are greatly worrying Jamaica. She is attempting to safeguard herself against the plague by a rigid quarantine against Trinidad, which went into effect today, but no way has yet been found to keep out the Chinese who are coming by way of Canada.

Havana, June 4.—All Cuban ports exept Marel were closed today against Venezuela on account of the bubonic plague. Marel was left open, as it is the quarantine port for infected vessels. The action was ordered by Governor General Magoon on the recommendation of the national sanitary board.

Insurrection Probable.

San Jose, Guatemala, June 4.—Quick intervention on the part of either the United States or Mexico is necessary if an insurrection is to be prevented here, according to the belief of the leading business men and conservatives of the country. Business has been wrecked, it is said, in order that Cabrera may satisfy personal grievances and strengthen his political lines. It is said that the wives of a number of his political enemies have been subjected to insults and inconveniences for daring to voice sentiment against Cabrera. No reply has yet been received from a protest sent to Washington, and Mexico is now regarded as the one hope of the persecuted. It is believed here that it is going to require force to get justice for Cabrera's political enemies.

Is Life Returning?

Asheville, N. C., June 4.—Although N. H. Carpenter, formerly of Atlanta, who occupied one of the Vanderbilt villas at Biltmore, has been dead three weeks and his body embalmed, natural color is returning to his cheeks and the fulness of his face is being restored. Physicians declare the case the most remarkable known to medical science and are closely watching all developments. Mrs. Carpenter, at the time of his death, refused to allow her husband's body to be buried, declaring he was not dead. She and her husband were devout Christian Scientists. After keeping the body at Biltmore for five days she agreed to have it sent to her former home for burial. The body was shipped, but Mrs. Carpenter changed her mind and again refused to allow it to be buried.

Collision.

New York, June 4.—Running at fifty miles an hour the "million dollar express" on the New York, New Haven and Hartford line, running from Boston to Washington, crashed into a switch engine, hauling two cars, near the Port Morris yards in the Bronx, at an early hour today. Five persons were injured. The engineers of both trains were arrested charged with criminal negligence. The impact of the engines was terrific. They reared and were thrown from the tracks. Fire broke out and the fire department responded, putting out the blaze after a lively fight. The express train carried $115,000, besides eight cars of valuable cargo. To guard against thefts police reserves were called out and guarded the train.

Mississippi Rising.

St. Louis, June 4.—The crest of the rise of the Mississippi river is expected today. A 30-foot stage, the danger point, is predicted by the Weather Bureau, but old river men expect a thirty-two-foot stage. Early today the water was rising two-thirds of an inch an hour. Considerable damage to goods was done, but apparently the warning gave residents of the flood district an opportunity to flee.

Socialists Elected to Diet.

Berlin, June 4.—Socialist today claim the success of eight of their candidates to the Diet. This unprecedented result is due to the fact that the vote cast was unusually light, the radicals and others carrying on a half hearted campaign. The socialist waged a hard fight, particularly in this city, where five of their candidates were elected.

New York Stock Market.

New York, June 4.—There was the same irregularity this morning that characterized the early trading yesterday, the opening being generally to lower prices. After the rally a supply of stocks caused a reduction on which declines of over one point were sustained.

The general tone at midday was heavy and prices in a majority of issues showed moderate declines.

Laborites Lose.

London, June 4.—After an acrimonious debate in the House of Commons today in which personalities were flung broadcast and the motives of King Edward impugned, the laborities lost, by a vote of 225 to 59, their fight to prevent the king from making his trip to Reval, to pay his respects to Emperor Nicholas.

THE GAZETTE.

Our valued contemporary, the Alexandria Gazette, issued a special illustrated industrial edition on Wednesday, May 20th, which was not only a credit to that highly-prized, reliable old Virginia journal, but to the city as well, inasmuch as it is a valuable historical paper apart from its current features. It reveals among other things the progressive industrial spirit that has taken hold of Alexandria in recent years, and every person interested, even in the least degree, in the old burg should have a copy, which we presume may be obtained from the office of the Gazette. —[Loudoun Enterprise.

Alexandria has a history dating from 1669 long and eventful. From the time it was named Belle Haven until now it has been distinctively a Virginia city. Its leading newspaper, the Gazette, is in its one hundred and ninth year—old but young, its present editor being the third of the family to furnish brains for it. The Gazette has just issued an industrial edition of twelve pages, full of matter pertaining to the old "burg." Old as it is, it is up to date, with manufactures many and commercial enterprises not a few. Although it has been derisively called "the cemetrial suburb of Washington" it is evidently quite alive, and its history not all written as yet. There are those who advocate the taking it back into the District of Columbia—it was once a part of that territory—but Virginia could ill spare what is one of the most distinctively Virginia cities of the Old Dominion.—[Virginia Citizen.

No Need of Suffering from Rheumatism.

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by W. F. A CARD FROM MR. GORDON.

To the Editor of the Alexandria Gazette:

Sir: I have today read for the first time the affidavits of the officers of Alexandria city touching the last congressional primary, and note in the treasurer's statement the following language: "I know that no man can point to the name of any individual upon my said list whose name was not properly placed thereon. And I defy any man to show that I have not settled with the Commonwealth of Virginia all taxes shown by said list which have been collected by me, or that there is a single name upon said list that was afterwards placed upon the delinquent list for 1906." I have today examined the records in the Clerk's office of said city and find the following facts:

Jos. Lowenbach, of the Fourth ward, is marked on the treasurer's voting list used in the congressional primary of 1907 as paid for the years 1904-05-06 and appears upon the delinquent list for the years 1905 and 1906.

Joseph F. Chichester, of the Fourth ward, is marked paid on said voting list for 1904-05-06, and also appears upon the delinquent list for 1905 and 1906.

John Penn, of the Fourth ward, is marked on said voting list paid for 1904-05-06, and also appears upon the delinquent list of the years 1905 and 1906.

William H. Smith, of the Fourth ward, is marked paid on said voting list for 1904, 1905 and 1906, and also appears upon the delinquent list for the year 1904.

Chas. W. Nowland, of the First ward, is marked paid on said voting list for the years 1904-05-06, and also appears upon the delinquent list for 1905 and 1906.

Walter R. Cline, of the First ward, is marked paid on said voting list for the years 1904-05-06, and also appears upon the delinquent list for the years 1904 and 1905, as W. R. Cline but the directory seems to indicate that it is the same man.

John G. Eberhardt of the Second ward, is marked paid on said voting list for the years 1904-05-06, and appears upon the delinquent list for the year 1905.

Albert McCuen sr., is marked paid on said voting list for the years 1904-05-06, and also appears upon the delinquent list under the name of Albert McCuen for the years 1905 and 1906. Albert McCuen jr., is also marked paid on list for 1904-05-06, and it seems evident that Albert McCuen sr., and Albert McCuen jr. is the same person. Sam'l Rambo, of the Second ward, is marked paid for the years 1905 and 1906, and appears upon the delinquent list for the years 1905 and 1906.

Anthony Brenner, of the Third ward, is marked paid by the treasurer, for the years 1904-05-06, on said voting list, and appears upon the delinquent list for the year 1905.

William Darley of the Third ward, is marked on said voting list paid for the years 1904-05-06, and appears upon the delinquent list for 1905 and 1906.

Geo. W. Hall, of the Third ward, is marked on said voting list paid for 1904-05-06, and appears upon the delinquent list for the year 1905.

Wm. Rogers, of the Fourth ward, is marked paid on said voting list for the years 1904-05-06, and appears upon the delinquent list 1904, 1905, and 1906. In the city directory there are two Wm. Rogers, but there are also two Wm. Rogers on the delinquent list for the years 1904-05-06.

Henry Sampson, of the Fourth ward, is marked paid on said voting list for the years 1904-05-06, and appears upon the delinquent list for the year 1904.

None of the names of the aforesaid parties appear upon the clerk's account book with the State, referred to in his affidavit, except that of John Minton, who appears from said book not to have paid for the year 1904, but was nevertheless placed upon the said list. All of said parties appear to have been delinquent, at the date of said primary and are still delinquent so far as the records show.

It thus appears that ten of the persons above named appear upon the delinquent lists for the year 1906, after having been put upon the treasurer's voting list as having paid for that year. I had very little time to examine said records and cannot, at this stage of the canvass, consume my time in this way, but insist that the Carlin organs point out, if they can, any mistakes or errors in my letter of May 23rd 1908, and not resort to it with general certificates from the officers testifying to the correctness of their books. The truth is, that such statements are confusing and misleading to the voter, who is not a lawyer, and does not understand the difficulties surrounding the treasurer in making up a legal list. The treasurer, however, has publicly defied any man to show that there is a single name upon the said voting list that was afterwards placed upon the delinquent list for 1906, and I deem it my duty to state briefly some of the facts shown by the records, which seem to prove that he, like other men, is liable to error. I feel sure, however, that he has done nothing intentionally wrong.

Respectfully,

R. L. GORDON, JR.

THE PYRITES MINE CASE.

It was locally stated in the Alexandria Gazette a few days since that Boyd M. Smith, formerly of this city, had by recent decision of the Circuit Court of Appeals of the United States held at Richmond been reinstated in the possession and ownership of the pyrites mines in Louisa county, which has been the subject of litigation for sometime. This statement was published under a misapprehension of the effect of the decision of the court in the case mentioned. About two years ago Mr. Smith instituted a suit in the Circuit Court of Louisa county against the U. S. Fidelity & Guaranty Company to vacate for fraud in its procurement the decree of the Circuit Court of Prince William county in the case of Smith against the Pyrites Mining & Chemical Company of Virginia, by virtue whereof the property was conveyed by the commissioner of the last named court to the U. S. Fidelity & Guaranty Company. This cause on motion was removed to the Circuit Court of the United States for the Eastern district of Virginia, at Richmond, in which court the defendant, by its counsel, Jas. R. & H. B. Caton, of this city, and J. Kemp Bartlett, of Baltimore, demurred to the bill of complaint on the ground that its allegations were insufficient to sustain a bill in equity to vacate for fraud the decree of the Circuit Court of Prince William county, and upon argument the Circuit Court of the United States, Judge Waddill presiding, sustained the demurrer and dismissed the bill filed by Mr. Smith. To this action of the court Mr. Smith appealed to the Circuit Court of Appeals of the United States, which appeal was argued in February last, and at the May term the Circuit Court of Appeals reversed the decision of the Circuit Court of the Eastern district of Virginia and directed the last named court to overrule the demurrer to the bill and required the defendant to make answer to the same. The effect of this decision does not restore Mr. Smith to either the possession or title to the property, but leaves the questions raised by his bill to be litigated on the merits of the cause.

A PLEASANT AFFAIR.

The celebration of the one-hundredth anniversary of President Jefferson Davis's birthday by the 17th Virginia Regiment Chapter, U. D. C., at the Golf Club house yesterday evening, was a most successful affair. The guests were escorted to the golf house, which was very prettily decorated with flowers and trailing vines, about seven o'clock. A bountifully arranged table gave evidence that the comfort of the guests had not been forgotten, while the delightful music of the Alexandria Mandolin Club, under the leadership of Mr. Hammill, charmed the ear with the sweet airs of war times.

Mrs. W. A. Smoot, president of the chapter, welcomed the guests with a few well chosen words and then introduced Rev. W. J. Morton, rector of Christ Church, who spoke most feelingly of Jefferson Davis and the veterans, giving a few striking events in the lives of Davis and Lincoln. His all too short address was closed by a warning to the sons of veterans, charging them that the history of those days should be taught without fear or favor and that it was their duty to see that this was done. Refreshments were then served, after which Capt. S. B. Davis gave a very spirited talk on Davis and the Army of Northern Virginia. His speech with its pathos and wit, its beautiful tributes to leaders and privates and a very gallant tribute to the women of 1861 and 1865 was given close attention and thoroughly enjoyed. After more music by the Mandolin Club the guests drove home, still enjoying themselves, notwithstanding the rain.

SOCIAL SESSION.

Alva Aerie, Order of Eagles, after the routine business last night handsomely entertained its membership, visitors and friends in a social session. Mr. W. E. Jacobson was the chairman of the social session and conducted the affair to a successful conclusion. The first speaker of the evening was Mr. David Wolfe, of Washington Aerie, who portrayed eloquently the principles of the order and recited many interesting things connected with its history. His speech was heartily enjoyed and in response to an encore he gave a whistling solo which was pronounced fine. Timely remarks and a solo by Mr. Thomas Chauncey, past officer of Alva Aerie, and Messrs. Charles Beveridge and Donald Britt, of Washington Aerie; and A. R. Beller, of Almeda, Cal., and others were features of the evening's entertainment and were heartily enjoyed. A solo by Mr. Emmett Kelly added greatly to the pleasure of those who attended. The committee who managed the affair so successfully were Messrs. W. E. Jacobson, Sidney Barnhouse and George Norris. Everything seasonable was served by the lodge and those who attended pronounced the social session a great success.

COLUMBIA MEETING.

A large meeting of the Columbia fire company was held last night when considerable business was transacted. Two applications for membership were received and referred to the proper committee. The committee on entertainment's report showed that the company made $171.15 on the recent concert given by that organization. This money will be used in engaging a band on the occasion of the company's proposed trip to Harrisonburg in August to the annual convention of the Virginia State Firemen's Association. The executive committee of the company was directed to petition Council for $100 to assist in this matter.

CAN SELL "AMBERINE"

Judge Thurston, of the Circuit Court of Prince William county, today decided that "Amberine" could be sold in Manassas and dismissed Wade Goodwin, representing the Robert Portner Brewing Company, who had been convicted before the mayor of that town for violating the local option law by selling this beverage. "Amberine" is a mild beer containing less than one and a half per cent. of alcohol and is being made to meet the provisions of the liquor law, which the company makes no attempt to violate. Mr. S. G. Brent represented the brewing company in this case.

Pittsburg, Pa., June 4.—Wearing black masks and mounted on spirited horses, two bandits invaded Boston, near here, early today, and robbed the Monongahela Coal and Coke Company of goods valued at several hundred dollars. The community is living in a state of terror, this latest event coming upon the heels of a street car hold-up less than two weeks ago.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea Remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—ENNIS BROS. This remedy is for sale by W. F. Creighton & Co. and Richard Gibson.

In the Drinking Days.

A once well known individual who had lived every day of his life and gained from it a great experience left the following advice—and little else—to his sons: "Drink slow; do not mix your liquor; never sit with your backs to the fire." It was an excellent precept for the era in which it was given—the times when the dining room door was kept locked that there might be no shirking the claret and when the only chance at the circuit mess of escaping intoxication was to drop under the table "like the rest," as Lord Cockburn tells us he did, and lie quiet—nay, even when our judges resented that discredit should be brought on drinking by misconduct. Everybody drank, and much too much, in those days, but especially the upper classes. A well known politician discharged his coachman for overturning him in his carriage. "I had certainly drunk too much, sir," urged the poor man, "but I was not very drunk, and gentlemen, you know, sometimes get drunk." "I don't say you were very drunk for a gentleman," returned his master, "but you were exceedingly drunk for a coachman!"—London Illustrated News.

Cage For a Queen Bee.

When a queen bee becomes unproductive through old age, it is necessary for the bee keeper to supply the colony of bees with a new queen. This he does in the following manner: The old queen is removed from the hive and the bees are left alone for about twelve hours or longer, during which time they find out that they are queenless. The new queen is then put into a cage made of wood and wire cloth, with an opening through one end. This opening is filled tight with a mixture of honey and sugar. The cage thus prepared is laid upon the tops of the frames in the hive. The bees soon discover the new queen in the cage and set to work upon the honey and sugar. In the hive bees recognize friends and strangers by their sense of smell, and a strange queen entering a hive would be very quickly killed by the bees. By the time the queen is liberated from the cage she has acquired the scent of the hive and is therefore no longer a stranger.—London Globe.

Eccentric Editions of Books.

Mr. George Somes Layard in a book entitled "Suppressed Plates, Wood Engravings, Etc.," writes of the ridiculous people who value such books as the first issue of the first edition of Dickens' "American Notes" just because there is a mistake in the pagination, or a first edition of Disraeli's "Lothair" because the prototype of "Mgr. Catesby" is divulged by misprinting the name "Capel," or "Poems by Robert Burns," first Edinburgh edition, because the Duke of Roxborough appears as "the Duke of Boxborough," or Barker's "Breeches" Bible of 1594 because on the title page of the New Testament the figures are transposed to 1495, or the first edition in French of Washington Irving's "Sketch-Book" because the translator, maltreating the author's name, has declared the book to "traduit de l'Anglais de M. Irwin Washington," and in the dedication has labeled Sir Walter Scott "barronnet."

Cornish Humor.

The magistrate at the Liskeard police court might well have excused the laughter which greeted the remark of a police witness only a short time ago who said with all seriousness: "He was drunk, your honor, and couldn't stand. I told him to go away, and as he wouldn't I locked him up."

The laugh in another court was against the solicitor who severely asked, "Were you present when you heard this?"

Mixed metaphors are not a peculiar nor indeed a common failing of the Cornishman, but a certain eloquent town councilor quite recently got entangled when in the course of a protracted debate on the momentous subject of the local dust bins he declared indignantly, "It is time we put our foot down with a loud voice."—English Illustrated Magazine.

A Fair Jury.

In a suit some years ago between father and son before an Indiana justice of the peace the sextet comprising the jury came in after three hours' deliberation with the following impartial verdict: "We, the jury, agree to find judgment for neither plaintiff nor defendant and find that each pay half the costs." It is said the verdict struck every one as being so unusually fair that even the parties to the action were satisfied.—Case and Comment.

Fooled.

Lazy Lewis—I was told dat de farmer wot lives on dat hill paid his hands jist de same whedder dey worked er not, so I went an' hired t' him. Tired Thomas—Den youse played off sick, I reckon? Lazy Lewis—Yep, an' at de end ov de month I found dat he never paid nobody nothin' nohow.—Chicago News.

The Concertina.

The accordion, which was a development of a previously existing aeolina, was invented in 1829 by a Viennese named Damian and consists, as every one knows, of a small pair of bellows and a range of keys which regulate the admission of wind to metal reeds. The accordion sounds notes in one key only. The concertina proper was invented on the same date by Charles Wheatstone, who later became a famous man of science. It seems curious that a man whose reputation rests chiefly on his electrical work and discoveries, who was one of the earliest men of science to make experiments in connection with submarine cables and who, moreover, was an extraordinarily skillful decipherer of cryptographic writings, should also have dabbled in musical inventions. But, as a matter of fact, Wheatstone's musical work preceded his scientific discoveries. He went straight from school to the business of manufacturing musical instruments, and it was in 1829, at the age of twenty-seven, that he took out his patent for the concertina. But he was more interested in the scientific principles on which musical instruments are constructed than in music itself, and his acoustical and musical experiments soon drew him into the path which led to his many electrical discoveries.—London Globe.

An Emended Sign.

Many a householder at the mercy of the painter will find a bond of sympathy with the students of Stanford university in the incident taken from the San Francisco Chronicle. The score of fraternity houses on the campus were in the process of being cleaned up in preparation for the receptions and luncheons to be given to visitors on the day of the big football game. A man got the contract to paint one of the houses white with the understanding that the job must be done and dry by a certain day. After making a rush start the painter asked permission to hang out his sign. His request was granted, and he put up a conspicuous announcement over the front porch, "These Premises Being Painted by Blank Blank."

Then the work dragged. He would come one day and stay away two. So the impatient collegians added to the sign until the announcement read: "These Premises Being Painted by Blank Blank, Now and Then."

A Calm Witness.

A lawyer was cross examining a witness with a view to getting him muddled in his testimony. The following questions and answers occurred:

"Did you see the plaintiff faint a short time ago?"

"Yes, sir."

"People turn pale when they faint, don't they?"

"No, sir; not always."

"What! Do you mean to tell me that a person can faint and not turn pale? Did you ever hear of such a case?"

"Yes, sir."

"Did you ever see such a case?"

"I did, sir."

"When?"

"About a year ago, sir."

"Who was it?"

"'Twas a negro, sir."

The lawyer excused the witness.—Cincinnati Commercial Tribune.

The Moabite Stone.

The so called Moabite stone was discovered by the Rev. F. Klein in 1868 among the ruins of Dhiban, the ancient Dibon. The stone was of black basalt, rounded at the top and bottom, two feet broad, three feet ten inches high and fourteen inches in thickness, but was unfortunately broken by the Arabs, whose cupidity had been aroused by the interest that was taken in it by the explorers. The fragments were afterward collected and laboriously fitted together, and the stone now stands in the Louvre at Paris. The inscription of thirty-four lines is in Hebrew-Phoenician characters and appears to be a record of Mesha, king of Moab, mentioned in II Kings iii, referring to his successful revolt against the king of Israel.—New York American.

A Model Friend.

What true friendship consists in depends on the temperament of the man who has a friend. It is related that at the funeral of Mr. X., who died extremely poor, the usually cold blooded Squire Tightfist was much affected.

"You thought a great deal of him, I suppose?" some one asked him.

"Thought a great deal of him? I should think I did. There was a true friend! He never asked me to lend him a cent, though I knew well enough he was starving to death!"

Too Expensive.

Two little girls who were taken to see "Othello" were much impressed by the death scene.

"I wonder whether they kill a lady every night?" asked one.

"Why, of course not," said the other. "They just pretend to! It would be too expensive to really kill a lady every night!"

Sweet Sorrow.

"I can't please my friends," sobbed the young bride.

"What's the matter, pet?"

"They insist that I can't be happy with a fathead like you, but, oh, husband, I am!"—Washington Herald.
